MERRIFIC STORMS.

Fifty-One Die By Violent Wind.

Gales Sweep East and Carry Death and Desolation Broadcast.

Seventeen Are Lost on Great Lakes and Crew Has Gone Adrift.

Wires Go Down, Communication Is Cut Off and Report Incomplete.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, April 7.—[Exclusive Dispatch.] Terrific storms swept over the middle west portions of the South and the entire East today, causing many deaths and injuries and enormous property loss. East of Chicago telegraphic communication has been practically broken since early in the afternoon, and the extent of the damage cannot be ascertained.

In Chicago the wind attained the dimensions of a hurricane.

The greatest single disaster is reported from Cleveland, where two boats carrying sixteen men are missing and it is regarded as almost certain that all have perished. This would bring the total deaths, so far as known on the Great Lakes, to twenty-two.

It is known that eight persons were killed at various points in Michigan. It is regarded as certain late tonight that this number will be increased to eleven. Three were drowned while crossing from Detroit to Canada, via a wagon, two were crushed under a wall blown down by wind, one was struck by lightning, one was crushed under a flying roof of a house, and two children were drowned while fishing.

One man was killed by falling buildings in Buffalo and a similar fate befell a man at Rochester. In Pittsburgh flying debris claimed a victim and a half score were injured in various accidents. At Chester, Pa., a man was blown under a moving train.

DAMAGE IN SOUTH.

In Mississippi ten deaths are reported from three points, all due to a storm.

In many small towns dwellings of the more flimsy character were demolished. All streams in the State, Southern Alabama and Eastern Louisiana, are overflowing their banks, doing vast damage to crops and factories. Kentucky was swept by a cyclone which killed one man, so far as known. The storm extended over Tennessee, doing great damage.

No communication can be had to night with Canada, and it is thought there has been much damage there. Wires to the Dominion went down early in the afternoon, indicating that the storm throughout the northeast has been general and of unusual violence.

In Chicago wires went down and over on the cobblestone pavements, hats sailed sky scraper high in the air or shot down sidewalks, packing cases were blown from wagons and hurled toward terrified pedestrians.

Wires to the Dominion went down early in the afternoon, indicating that the storm throughout the northeast has been general and of unusual violence.

The force of the charge was terrific. Many persons were swept off their feet.

POLICEMEN BLOWN AWAY.

Special policemen detailed to aid women pedestrians, whose skirts acted as sails to catch the blast, were themselves often driven helplessly before the breeze, like ships making leeward in a storm. Crowds of idlers gathered at the principal crossings to witness the many incidents—some of them laughable—which happened after

HASKELL ARGUMENTS CLOSE.

Case Will Await Decision on Motion to Quash Indictments Against Governor.

(ASSOCIATED PRESS NIGHT REPORT.)

TULSA (Okla.) April 7.—Arguments were concluded today in the motion to quash the indictments against Gov. Haskell and five co-defendants in the land fraud case, and the motion was taken under advisement by United States District Judge John A. Marshall of Tulsa, who is trying the case.

A decision is not expected for several days.

If the motion is overruled, attorneys for Gov. Haskell will argue on a demurrer.

When the third day's hearing of the case began today, Sylvester Rush, the special attorney for the government, made his argument for the prosecution. He directed his argument against the motion of the defense to quash the indictments on the ground that he had conducted the grand jury investigation at Muskogee improperly.

Mr. Rush severely arraigned counsel for the defense and denied that he had acted improperly or attempted to bias witnesses that had been called before the grand jury. He recalled that the grand jurors who testified yesterday had said that his conduct, on the other hand, had been proper.

Mr. Rush was followed by Judge C. D. Stuart for the defense.

ESCAPED LUNATIC SUES.

Wants Damages for Broken Leg Sustained by Fall from Third-Story Window.

(BY DIRECT WIRE TO THE TIMES.)

PORTLAND, April 7.—[Exclusive Dispatch.] Annoyed because he broke his leg in escaping from the State Insane Asylum, U. G. Kightlinger of Salem has brought suit against J. E. Galbreath, former superintendent of the asylum, for damages. He fell from a third-story window while escaping on the night of February 2, 1908.

Kightlinger pried open the lower part of the steel window guard and squeezed through, making a rope of bed sheets to slide to the ground. When he had lowered himself about halfway to the ground, he felt the sheet rope giving way, the metal casting of the window having cut it. Instead of jumping to the ground, the escaping lunatic climbed part way back to see what was the matter with his rope. He fell heavily for almost fifty feet.

He bases his suit against Dr. Galbreath on the alleged insecurity of the window guard. The case goes to the jury tomorrow.

WINS LONG BEACH BRIDE.

Prominent Missouri Prohibitionist Weds Mrs. Jennie Telford in Sedalia.

(BY DIRECT WIRE TO THE TIMES.)

SEDALIA (Mo.) April 7.—[Exclusive Dispatch.] E. E. McClellan of this city, a prominent State leader of the Prohibition party, once its nominee for Secretary of State, and last fall candidate for Congress in the Seventh district, was married here today to Mrs. Jennie Telford of Long Beach, Cal., who formerly was Miss Jennie Leaver of Cincinnati, Ohio.

WHEAT HIGH IN ENGLAND.

LONDON, April 7.—The British wheat market, which has been rising for some time, touched 42s. 6d. today, the highest price in London for a quarter of a century, except momentarily at the time of the latter corner. British farmers' stocks are now only 20 per cent. of the average for this time of the year, good prices having induced them in most cases to market their stock, mainly to Germany and Italy, soon after harvest.

Twisting Lion's Tail.

BRITISH SEE PERIL IN AUSTRIAN SHIPS.

(BY DIRECT WIRE TO THE TIMES.)

LONDON, April 7.—[Exclusive Dispatch.] Deep concern prevails in the admiralty as the result of the determination of Austria to lay down three Dreadnoughts in the Adriatic. The feeling at the admiralty amounts almost to acute alarm, the political equilibrium of Europe being regarded as utterly upset.

"Obviously," said a high naval official today, "we are confronted with a situation of surpassing gravity. Our sea route to India is threatened and the whole Egyptian position imperiled."

"Germany and Austria, hope either to bankrupt England or to place this country in a desperate predicament. In the event of war the Mediterranean is absolutely vital to us. We took the chances of war during the Moroccan crisis in order to safeguard our imperial gateway and our possessions in the Mediterranean. This puts one more power, possibly hostile to England, in the Mediterranean, and compels us to build warships not only with reference to Germany and Austria, but with reference to Russia as well."

"The Turks have been alienated from us by our inability to give them effective support, and they much prefer to cast in their lot with the Germanic race. The outlook is one of tremendous seriousness for the British Empire. We undoubtedly need all the support we can get from the colonies in the great struggle between the British and Germanic races which is developing."

LABOR.

STRIKE TIES UP SHIPPING.

EMPLOYEES ON GREAT LAKES OUT WITH ENGINEERS.

Ten Thousand Men Will Refuse to Go on Duty and Opening of Navigation May Be Postponed—Fight Is for Recognition of Union Contract.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, April 7.—[Exclusive Dispatch.] Ten thousand marine engineers, firemen, oilers, water tenders and laboring men because of work for them and socialism, is to show further loyalty to the cause by using the \$1,500,000 won by her in stocks to further the campaign. That she should devote this fortune to the socialist cause is taken to indicate that her investments will continue to provide a comfortable income.

The Countess has been interested through agents, in the markets for more than a year. She was cosmopolitan in her investments, buying American railroad stocks; one day she said to have studied the stock lists and to have ordered the purchases on her own judgment.

The Countess is famed as the most beautiful woman in England, as well as an owner of exceptional ability. When still in her teens Lady Brooke created a sensation by calmly announcing that the homes of the exclusive society folks in London were the scenes of gambling. That indiscre-

CONFEDERATE FOR LINCOLN.

Florida Veteran Leads Fight to Declare Emancipator's Birthday a Holiday.

(ASSOCIATED PRESS NIGHT REPORT.)

TALLAHASSEE (Fla.) April 7.—When Gov. Gilchrist's message was debated in the Legislature today Senator Board moved to table that portion which recommended making the anniversary of Lincoln's birthday a holiday. Excitement rose to a high pitch when Senator Broome, Confederate veteran, led the argument in favor of observing the birthday. Board's motion was lost.

Milburn Raps Government Stand.

Standard Counsel Says Miss Tarbell Entitled to "Conspiracy" Patent.

Likens Great Corporation to Human Body, Pipe Lines for Arteries.

To Dismantle It, He Declares, Would Be to Strike It Dead.

(ASSOCIATED PRESS NIGHT REPORT.)

ST. LOUIS, April 7.—"Miss Ida Tarbell is entitled to a patent on the alleged Standard Oil conspiracy of 1878," declared Lawyer M. R. Milburn, the Standard Oil Company's chief of counsel, today, during his argument before the United States Circuit Court in the government's suit to dissolve the Standard as a violator of the Sherman act.

"And," he added, turning toward Federal Attorney Frank R. Kellogg, "the government here is trying to deprive her of it."

Mr. Milburn compared the Standard to the human body, with its many ramifications corresponding to the blood and its pipe lines to the veins and arteries.

"To dismantle this corporation," he said, "would be to strike it dead. It is like the organism of the human frame. Every part of it is so related to the other that to separate them would be to dismember and destroy it."

GUIDE TO INDEPENDENCE.

Instead of being a menace to the independent refiners, Mr. Milburn declared, the Standard had always led the way and blazed the trail in the oil world and the independents had in follow as they had always done.

It is Mr. Milburn's contention that the Standard has been a greatly magnified corporation, whereas, as a matter of fact, it has been the nation's greatest developer of not only local but foreign commerce.

**WALKING CONTEST TURN
STRAINING EFFORTS**

One Contestant Proposes to
Detective Friend Guard
Chances and See That She
Fair Play—Physician Watches
Condition of the Entrants.

In spite of the hard spurts
line Jackson, who came within

at her during the day, Jennifer Gibson, 16, of 10 S'cok last night, still in the lead in the six-day walking tour of the Made in Southern California position. The match has resulted in a neck and neck race place between the two, while Gibson and Odessa Webb are hard to get in third.

The totals for the week, as when the walking closed at 11 last night, were:

	Miles Last
Jennie Beadie	97
Pauline Jackson	96
Jessie Gibson	74
Odessa Webb	60

Marie Harvey64	6
Cornelia Papentia64	1
The records for yesterday were		
		Miles Lap
Jessie Gibson23	0
Adeline Gibb39	0
Cornelia Papentia39	0
Pauline Jackson18	0
Marie Harvey17	0
Jennie Beadie17	0

The match is now one of the best and the staying powers manifest that the girls was the winner, in fact the girls were the winners on the third day of the hardest kind of training. Their grit is amazing and athletes who are accustomed to long upon feats of endurance

was recalled yesterday, that the army a daily distance of 10 miles, considered so hard as to be only under stress of the necessity.

As long as they are on the girls seem to think of nothing but to make the distance in the least possible time. The explanation is such that it is only by of scratches and severe lectures from the physicians and Manager that they can be persuaded to track when in need of rest and to rest from the time they get down. It is only when the day is over and the scores announced at 10 o'clock at night that they permit themselves to

DETECTIVE TIME KEPT
Cornelia Papentia, the most temperate of the girls, was there with temper yesterday. When ordered to take a rest she indignantly refused, saying that management was an unfair advantage of her, and she never could be made to unlearn that the regulations and restrictions she was called upon to obey tended for her own welfare. She took of the management to guard her ultimate chances of
"I'm going to have a friend to keep time for me, you see she snipped back at Gerson thinking he was not duly in-
"I'm going to have a friend to keep time for me, you see she snipped back at Gerson thinking he was not duly in-

To a newspaper man she saw a crowd, she called out, 'I've one of the biggest firms in the city on me; they won't come out last day. You see me?' She made a big effort, turning the sitting up to third place on the performance, but at 7:30 o'clock a watchful doctor in charge was obliged to order her home.

When Jane Jennings, who lost her ship by piracy two months ago, was enrolling and tramped up to one Jennie Beadle, the leader, who was sent to her room at 8 o'clock while the Beadle girl tramped up and down the stage, but still determined and finished.

Marie Harvey and Jessie Gith were rivals from a young age. A lively afternoon of it. A game of rivalry has sprung up between the two, and Marie tried to make a comeback before the scorers. Jessie, a little later, was found in the bathed in tears. "Some man was too small to win," she said. Manager Newman. The little reassured. A little later, singing as she hiked around the track, apparently as fresh as the first day of the match.

California Whist Association's Maryland, Pasadena, yesterday devoted to afternoon and evening patch matches, with the result that prizes for north and south were won in the evening by captured L. Richards of Pasadena, and Lofius of Los Angeles, with a plus of plus 10 7-3, while the grime and west hands went to J. W. Erick and W. F. Hanaford, 10 Los Angeles, with a plus 6 7-4. Richards and Loftus used with advantage their training in the ton game," with its flavoring c suits.

TAKES A RAP AT SWIMMING

A fair-sized hornet's nest was set up at the monthly meeting of the commission of the Amateur Athletic Union at the Y.M.C.A. last night when the presentation of a letter from Walter Lawrence, a member of the commission, charging that swimming in Southern California was conducted in a clique which forbade the proposition of the sport.

after a trial lasting two weeks, which has centered great interest in the parish of Tangipahoa because of the long record of crimes committed on its borders.

STANFORD MEET.
STANFORD UNIVERSITY, A [Exclusive Dispatch.] The [Stanford] team won the interclass track meet at Stanford today, which will be the last the SU team will participate in before the intercollegiate contest with the University of California April 1. The seniors' score was 56; freshmen, 54; sophomores, 19; juniors, 11.

MRS. BERTHA E. J. LOW DIES
NEW YORK, April 7.—Mrs. I. Eugene Jullienne Low, wife of James H. Low, a well-known artist, died at home in Bronxville today, after a long illness. She and her husband were intimate friends of Robert Louis Stevenson, and at the time of her death she had translated nearly all of his works into English. She was one of the group of friends who Stevenson made during his short stay in New York as an author.

• Eleven were drowned.

PUBLIC SERVICE OFFICIAL DOGS.

SUMMARY OF THE DAY.

Mayor Alexander promises an investigation into the public library if Miss Blandy's statements warrant it. The will of E. J. ("Lucky") Baldwin was admitted to probate yesterday in Judge Rivers' court, without a contest. Executor Unruh estimated the value of the Baldwin estate at over \$1,000,000. Compromise made. Violent prosecutions of cases of violation of the pure-food laws of the state were commenced and four cases were disposed of by Justice Ling yesterday.

AT THE CITY HALL.

MAYOR PROMISES INVESTIGATION.
HE WILL HEAR MISS BLANDY ON LIBRARY AFFAIRS.

If she shows that the conditions warrant it his Honor will Order an Inquiry—He May Place Brownstein on Board—Opposition to L. Brennan's Policy.

Public Library affairs are to have an investigation if Mayor Alexander determines that one is necessary. He received Miss Blandy, the deposed principal of the Branch Department yesterday, and heard what she planned to show him of the serious situation in the big institution, as she sees it. But the Mayor does not promise a "ripping open" of all things connected with the library.

There are many good men on the Library Board, said the Mayor yesterday, and I feel that they may be trusted to see that any wrong there will be righted. Miss Blandy put her case before him, and he was able to hear what she has to offer in proof of her statements. But I say there is no doubt that the board will be able to recognize all that is amiss and straighten things out.

The Mayor has the appointment of a successor to G. G. Marshutz, and it is reported that he will ask D. Brownstein to accept the membership. But the Mayor would not commit this yesterday.

The attack on the library seems to be concentrating on Libraries' Lummis, and there is reason to believe that, when Mayor Alexander does make an appointment, it will have something to do with the head of the library. It has been known for some time that members of the board were not satisfied with the policy of Lummis, and there have been efforts to require a different policy from him. But these have not been sustained by the board as a whole.

Lummis has many staunch friends amongst the recall element. They say the library needs him for his literary qualifications, but that the library also needs a business manager who may have a better economic and disciplinary touch. But the fact to be taken into account is that the statement of fact Miss Blandy made concerning the management, and this will not be known for several days.

G. M. Giffen, a library director, had another conference with the Mayor yesterday. He is the member who once wanted Lummis required to put in specific hours at the library.

DISPUTES RAILROAD CLAIM.
Claims of the Southern Pacific Railroad Company that the city of Alameda street which its tracks occupy is disputed by the City Engineer in a report filed yesterday. The claim is based on a condemnation proceeding made many years ago, but the Engineer reports that this proceeding was never completed. He reports that the records show Alameda street to have been an eighty-foot thoroughfare since its opening, without reference to the Southern Pacific right of way. The question was raised by P. L. Saurer, resident engineer of the company.

FAVORS NARROW ROADWAYS.

In his report to the Board of Public Works yesterday the City Engineer recommends that the roadway street of sixty feet width in residence districts should be only thirty feet wide. This was brought out by the appointment of residents of many streets in Glendale for forty-foot roadways. The Engineer thinks thirty feet enough for any residence district, and the board concurs.

MUST FACE GRAVE CHARGE.

Physician Accused of Abusing His Little Stepdaughter is Held for the Superior Court.

Dr. E. E. Duncan, formerly of San Bernardino, who was arrested by the humane officers, was held for trial in the Superior Court yesterday on a statutory charge after preliminary examination before Justice Rose in the Police Court.

Duncan is alleged to have abused his twelve-year-old stepdaughter, Helen Tyler. The little girl complained to neighbors, who placed the case before Humane Officer Reynolds. He investigated and arrested Duncan, on a complaint sworn to by the girl. Duncan was turned over to the custody of the Sheriff, and will be held prisoner in the County Jail. His bail was fixed at \$5000.

MUST LEAVE AMERICA.

Commissioner Van Dyke ordered the deportation of Chan Leung Hui, yesterday, after a long hearing in the Federal Court. The Chinaman claimed that he came into this country as a merchant and was in business for some time. He alleged that he failed and took up vegetable peddling as a resort. Chan was well known in the migration law, the status of laborer Westlake district and established a large trade. But according to the immigration officer, he became addicted to the vicious little peddler and he must go back to China, unless the District Court reverses the decision of the commissioner.

ALEXANDRIAN WINS.

The Commissioner of the General Land Office has sustained the ruling of the local officials in the contested case of May M. Farr against N. Alexandrian. The register and the survey of the land that the entryman had cultivated in the Imperial Valley according to the provisions of the desert land law and dismissed the contest. Alexandrian was then taken by the contestant.

BODY FOUND IN RIVER.

CHICAGO, April 7.—The body of Gus Lundahl, who disappeared last fall, has been found in the Chicago River. Whether he met with foul play or was accidentally drowned, the police are unable to determine. At the time of his disappearance, Mrs. Lundahl feared her husband had been kidnapped by friends of some men whom he had prosecuted on the charge of robbing him. When the men were arrested in court, their houses were continued on the request of their attorneys. A few days before they were taken to court again Lundahl disappeared.

SECRET COMPROMISE IN BALDWIN'S WILL.

Mrs. Lilly Bennett Baldwin.

"Lucky's" widow, with whom a compromise was effected to permit peaceful settlement of the immense estate.

ON THE face of it, the official will of E. J. ("Lucky") Baldwin was probated yesterday before Judge Rivers in the Superior Court, but actually, in "Lucky's" last handicap race with his millions, he was left at the post, and the "pursu" was more evenly divided among the field.

Just what the compromise was by which the widow, Mrs. Lilly Bennett Baldwin, and the latest discovered daughter, Mrs. Zella Selby, benefit in greater proportion than the will provides, was carefully guarded as a profound secret by all concerned. But the compromise was accomplished to the satisfaction of the threatening contestants.

When the game old sport, who never wavered a bet and was willing to wager either that the sun would or would not rise on a given day, who won and lost thousands on the turn of a card or the result of a horse race, even if it had to be won by a throat-latch, cashed in his last ticket at good odds at Santa Anita last March, he left a statement that his widow and one of his daughters have succeeded in pulling out of his pockets, Old "Lucky" did not have his way about the distribution of his money, even if he did about other things.

That will bequeathed nearly all of his property to his daughters, Mrs. Anita McClaughery and Mrs. Clara Baldwin Stocklin, his widow getting a one-third interest in what is known as the Baldwin Annex in San Francisco, worth, perhaps, \$500,000, while Mrs. Zella Selby was cut off with a measly \$20,000 worth of the Arcadia acres.

Then there was a protest, and rumors of a contest of the will, but before the argument had blossomed into a petition in the Superior Court of Los Angeles county, a settlement was made with Mrs. Lilly Baldwin, who opened the chorus of objections. That accomplished, it was thought there would be no further trouble. But Mrs. Selby made a complaint that she was not satisfied, and immediate action was taken.

AT THE COURTHOUSE.
PAY PENALTIES PROVIDED FOR.
MISLEADING NAMES CAUSE OF THEIR TROUBLES.

Manufacturers Plead Guilty to Violations of State Pure Food Law and Pay Fines—Legal Representatives Will Conduct Crusade Against All Makers of Illegal Goods.

Infractions of the pure food law are now engaging the attention of the officials charged with the duty of enforcing them. It is understood that recently there have been many violations of this enactment, and it is intended to watch closely all such cases and follow the discovery with swift justice.

Justice Ling had several such offenders before him yesterday, and the testimony indicated how buyers were being imposed upon by the sale of all sorts of deceptions under the guise of foodstuffs. N. W. Tilden of San Pedro was arraigned for selling what he called "lime juice," but it did not measure up to the standard prescribed by the law, and he was fined \$25 and costs, which he paid.

E. W. Swift of Hollywood was telling what he termed yolkoline, but it could not pass muster, and he contributed \$25 to the public funds. Arthur Leaven of Sawtelle and W. M. Pittman were engaged yesterday on what they are pleased to designate as root beer and strawberry flavor, minus the strawberry, and they will be heard on the 16th. The plea is that they are not guilty, and claim the stuff is within the pale of the law governing the sale of such products.

FINED FOR CONTEMPT.
CONTRACTOR ESCAPES JAIL.
Daniel Riordan, a contractor with offices in the Grose building, was given a merry chase in Justice Stephens' court yesterday, having been found guilty of contempt in treating a process of the justice with a total lack of courtesy, and attempting to obstruct the justice by a bench warrant, out of the window.

It was intended to give him a severe sentence, in order to have a deterrent effect on others. But the court, not given notice issued out of justice, gave the proper attention, but the hysterical condition of Riordan's wife compelled the justice to deal with him in a charitable way. He was, therefore, fined \$25, which he paid, and given a day in the County Jail, but Mrs. Riordan showed so much feeling when the court passed judgment, that the sentence was remitted.

No sooner was Riordan over this trouble than he was again taken into custody for contempt, this time on the charge of resisting an officer, and he paid \$10 into the treasury of Judge Chambers' court for battery. Altogether it was a rather busy afternoon for Mr. Riordan.

that the valuable holdings of Myers will figure in the settlement of the suit.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.
MARRIAGE ANNULLED. Judge James yesterday annulled the marriage of Henry B. Parker and Hannah E. Parker, on the ground that at the time of their marriage the woman had a husband living from whom she had not been divorced. They were married in Los Angeles in 1902.

ADJUDGED INSANE. The lunacy commission yesterday ordered E. Graves and M. Cowart committed to the State Hospital at Patton. Graves was violent and it required hard work to handle him at the hearing.

GUilty OF CONTEMPT. Judge James ordered Robert G. Jones committed to jail for contempt in refusing to obey an order issued from his court, adjudging him to pay his wife, Annie Jones, who secured a divorce in November, 1908, \$10 a month for the support of herself and child. At the hearing of the case a few days ago his attorney promised the court that \$20 should be paid by Tuesday, but the money was not forthcoming, and back pay amounting to \$45 was demanded. The mother of the boy, Jones was sent to the County Jail.

WANTS THE MONEY. C. L. Chambers has brought an action against R. J. Leavitt for \$800, alleged to be due on a four-cylinder twenty-horse power automobile the defendant had sent to Leavitt from Seattle, Wash., with orders to sell. It is alleged the machine has been disposed of and that Leavitt has neglected and refused to pay over the money. A judgment for the amount is asked.

TO ADOPT CHILD. Lillian De Pina has filed her petition in the Superior Court asking permission to adopt Harold Stanley Lee, the son of Rufus and Josephine Roof, born December 20, 1903, whose parents have deserted him. The mother of the child is the daughter of the petitioner. Joseph De Pina has been an inmate of the State Hospital at Patton for several years.

TURBULENCE. Harry W. Wynn brought an action in the Superior Court yesterday against W. H. Parks and his wife, Jane Parks, for \$500, alleged to be due on account of the education of the children of the defendants at what is known as the "Girls' School of Los Angeles." It is asserted in the petition that the rents made a contract for the work for one year from September 26, 1907, to June 15, 1908, for which Wynn was to be paid, but that the children were withdrawn from the school January 15, 1908. Suit is brought for one-half of the school year.

UNDER ADVISEMENT. Judge Connor took under advisement the case of M. J. Ely against Charles Heartwell, to recover \$2500 said to be due by reason of false representations made to Ely in regard to the financial standing of the Citizens' Savings Bank of Long Beach. The jury found in favor of Ely, but the matter is now in the hands of the court for final determination.

SANTA MONICA CASE. The case against Arthur W. Lizer of Santa Monica, charged with rape upon Lotie A. Lizer, a minor, was taken up for trial yesterday. A jury was drawn for the trial, when Lizer concluded to plead guilty, which he did, and made an application for probation. The defendant lacked sixteen days of being 16 years old at the time of the assault. The court will determine the matter tomorrow.

REMINDER OF JONES. Lot No. 35, in the Florida tract of this city, was sold by Sheriff Hammel yesterday, in the suit of S. M. Metcalf against L. E. Jones and Ryder Land Co., to the plaintiff in the case for \$2700. The claim of Metcalf against Jones was \$2500.

CRIMINAL COURT. In Judge Davies' court this afternoon the following prisoners will be arraigned: Francisco Torres, petit larceny with prior conviction; James Carroll, burglary; William K. Chasness, burglary; a deadly weapon; Mestor Quiroz, assault with a deadly weapon. A jury will be heard in the case of J. J. Swinney, who is charged with committing a criminal assault upon Hattie Williamson.

INCORPORATIONS. Articles of incorporation were filed with the County Clerk yesterday by the Hopewell-MacFarland Construction Company, capital stock \$75,000, subscribed \$30; St. James Hotel Company, capital stock \$75,000, subscribed \$20,000; Sanborn Bros. Successors Company, capital stock \$250,000, subscribed \$250,000, directors Minnie H. Sanborn, Freda Sanborn, F. A. Sanborn, Earl R. Osborn and Clair S. Tappan. Articles of the Co-operative Association of the Egg Producers, a corporation of Southern California were filed, with C. W. Stephenson, G. A. Mills, J. F. Diggins, Charles E. Killy, E. J. Jackson, J. J. Peagan, C. P. Eldridge and H. E. Gammon as directors.

WOMEN'S ROW SPLITS FIRM.

Milliners Fall Out Over Book-keeper's Job in Their Own Establishment and One Is Fined.

As a result of a quarrel over an account book, Miss Sophia Sides, a milliner, was fined \$10 by Justice Rose yesterday on a charge of disturbing the peace.

Mrs. V. S. Hammon was the complaining witness. The women own a small millinery establishment near the Majestic Theater. Hammon, the husband of one of the proprietors, was book-keeper. Miss Sides had a friend who wanted to be book-keeper. When Miss Sides requested that the books be turned over to her, she met with a refusal. It is alleged that she went to the Majestic Theater, where she resided, and there seized one of the books. A struggle between the women ensued, and Miss Sides was arrested.

HE'S ANOTHER BLACK.

James V. Black, who was arrested in connection with a real estate transaction several days ago, is not related to or connected with the firm of Black Bros. in any way.

Stops Falling Hair.

Ayer's Hair Vigor is composed of sulphur, glycerin, quinine, cod liver oil, capsaicin, sage, alcohol, water, and perfume. Not a single inferior ingredient in this lot. Ask your doctor if this is not so. Follow his advice. A hair food, a hair tonic, a hair dressing. Promptly checks falling hair. Completely restores all dead hair.

25% Dividend Earning Stock
in the New Glass Factory

SATURDAY is the last day (only 3 more days) and the shares of the California Glass and Soda Mfg. Co. will be advanced from the present 80c price. We say with every confidence in our proposition that you never had gold dollars at 80c thrust at you to a more certain degree than is here offered—this enterprise has at its back more vital reasons why nearer 40 per cent dividends will be earned than any industrial project ever launched in any industrial section of this continent. Isolated as Los Angeles is from the glass-making centers, 3000 miles to the east, we are free from the influences of trusts and combines which control the industry in the East. Yet this same isolation is a discrimination in our favor which means a 15 per cent profit on every bit of glassware we can manufacture—competition must pay big freight charges to get into this territory, and we can make our product as cheap as any eastern glass-making section dare do.

This Is a Bona Fide Industrial Enterprise

We have not launched the enterprise until we had corralled a limitless supply of raw materials—both silica for sand—which we own mountains of, and soda, which we own in natural beds, at a cost less than half what any eastern glass-maker can buy here—in short, our enterprise is in the hands of men who have learned their A, B, C's in glass-making cast, and have also spent from 2 to 5 years investigating local conditions, they have developed these vast deposits of raw materials which nature has stored here for just such a time as now, and they are gathering together appreciative investors who want to have a part in the inauguration of an assured profit-making, dividend-earning industry.

MINES AND MINING.

GREENE MAY PULL THROUGH.

Cattle Baron, Mining King, Not Dead Yet.

Reorganization of Mining Interests on.

The Colonel Likely to Come Out With Fortune.

After being completely down and out—buried so deep financially, that it was thought impossible to dig him up—Col. W. C. Greene, ex-cattle baron and "mining king" of the Southwest, has again demonstrated his fighting qualities. By his dogged will, he is rehabilitating. It is said, his broken fortune.

Following close upon the Canadian-American-English syndicate's taking of the Greene lumber, land and railroad interests, comes the news that Greene Gold-Silver is to be reorganized. Col. Greene was well "taken care of" in the first deal, and it is expected that he will be in the second, which bids fair to go through. Gen. Henry Ide Willey, formerly head of the geological survey of California and many years Greene's consulting engineer, has perfected organization in New York of the Humboldt Exploration Company, composed of Greene Gold-Silver stockholders, to absorb that last company, if an agreement can be reached with the creditors. He is in Mexico examining the properties and negotiating for new concessions, and expresses confidence of success.

Aside from rich mines, the Greene Gold-Silver concessions have great value. One title, covering 2,500,000 acres in Northern Chihuahua and Sonora, dated January 15, but not yet used and its loss is not considered a catastrophe. Those of greatest value are: For the use of the Arica and Yacuri rivers, practically unlimited water power for all enterprises and for milling purposes; for railroads, telegraph and telephone lines; for new import duties and taxes with other privileges of commercial value. The properties, valued at \$15,000,000, are as follows:

The Mulatos group, Salguaripa district, Sonora, widely known as the "El Mulatos" group, comprising the Balvanera group, Ocampo, Chihuahua, which has produced thousands of tons of ore of 85 and better with the same camp, the Guaymas copper mines, Guaymas district, Chihuahua, near the Sonora line; the Cerro Boludo and Veta Grande mines at Pinos Altos; the Santa Brigid group, which includes the Square and Compass, Guaymas and Navidad groups, the last including the rich El Cerezo later bought from Corrigan & McKinney, but recently forfeited after payments of \$100,000; the El Trigo gold mines, near the Sonora line; the Cerro Boludo and Veta Grande mines at Pinos Altos; the Santa Brigid group, which includes the Square and Compass, Guaymas and Navidad groups, the last including the rich El Cerezo later bought from Corrigan & McKinney, but recently forfeited after payments of \$100,000; the El Trigo gold mines, near the Sonora line; the Cerro Boludo and Veta Grande mines at Pinos Altos; the Santa Brigid group, which includes the Square and Compass, Guaymas and Navidad groups, the last including the rich El Cerezo later bought from Corrigan & McKinney, but recently forfeited after payments of \$100,000; the El Trigo gold mines, near the Sonora line; the Cerro Boludo and Veta Grande mines at Pinos Altos; the Santa Brigid group, which includes the Square and Compass, Guaymas and Navidad groups, the last including the rich El Cerezo later bought from Corrigan & McKinney, but recently forfeited after payments of \$100,000; the El Trigo gold mines, near the Sonora line; the Cerro Boludo and Veta Grande mines at Pinos Altos; the Santa Brigid group, which includes the Square and Compass, Guaymas and Navidad groups, the last including the rich El Cerezo later bought from Corrigan & McKinney, but recently forfeited after payments of \$100,000; the El Trigo gold mines, near the Sonora line; the Cerro Boludo and Veta Grande mines at Pinos Altos; the Santa Brigid group, which includes the Square and Compass, Guaymas and Navidad groups, the last including the rich El Cerezo later bought from Corrigan & McKinney, but recently forfeited after payments of \$100,000; the El Trigo gold mines, near the Sonora line; the Cerro Boludo and Veta Grande mines at Pinos Altos; the Santa Brigid group, which includes the Square and Compass, Guaymas and Navidad groups, the last including the rich El Cerezo later bought from Corrigan & McKinney, but recently forfeited after payments of \$100,000; the El Trigo gold mines, near the Sonora line; the Cerro Boludo and Veta Grande mines at Pinos Altos; the Santa Brigid group, which includes the Square and Compass, Guaymas and Navidad groups, the last including the rich El Cerezo later bought from Corrigan & McKinney, but recently forfeited after payments of \$100,000; the El Trigo gold mines, near the Sonora line; the Cerro Boludo and Veta Grande mines at Pinos Altos; the Santa Brigid group, which includes the Square and Compass, Guaymas and Navidad groups, the last including the rich El Cerezo later bought from Corrigan & McKinney, but recently forfeited after payments of \$100,000; GREENE MAY PULL THROUGH.

Cattle Baron, Mining King, Not Dead Yet.

Reorganization of Mining Interests on.

The Colonel Likely to Come Out With Fortune.

After being completely down and out—buried so deep, financially, that it was thought impossible to dig him up—Col. W. C. Greene, ex-cattle baron and "mining king" of the Southwest, has again demonstrated his fighting qualities. By his dogged will, he is re-establishing himself, he is said, his broken fortunes.

Following close upon the Canadian-American-English syndicate's taking of the Greene lumber, land and railroad interests, comes the news that Greene Gold-Silver is to be reorganized. Col. Greene was well "taken care of" in the first deal, and it is expected that he will be in the second, which bids fair to go through.

Gen. Henry Ide Willey, formerly head of the geological survey of California and many years Greene's consulting engineer, has perfected organization in New York of the Humboldt Exploration Company, composed of Greene Gold-Silver stockholders, to absorb that last company, if an agreement can be reached with the creditors. He is in Mexico examining the properties and negotiating for new concessions, and expressing confidence of success.

Aside from rich mines, the Greene Gold-Silver concessions have great value. One title, covering 2,500,000 acres in Northern Chihuahua and Sonora, lapsed January 12, but this was little used and its loss is not considered a catastrophe. Those of greatest value are: For the use of the Arica and Yagui rivers, practically unlimited water power for all enterprises and for mining purposes; for railroads, telegraphs and telephones, exemption from import duties and taxes with other privileges of commercial value.

The properties, valued at \$15,000,000, are as follows: The Mulatos group, Sahuaripa district, Sonora, widely known as the world's largest low-grade quartz mine, with a production record of millions; the Balvanera group, Ocampo, Chihuahua, which has produced thousands of tons of ore of 66 and better, with the Santa Julia, Torquillo, Guadalupe, San Jose, Rincon, Capitan and Adventure claims, and numerous locations in the same camp; the Guaymas, copper mines, Guaymas district, Chihuahua, near the Sonora line; the Cerro Delida and Veta Grande mines at Pinar Altas; the Santa Brigida, gold mines; the Square and Compass, Orizaba and Nevada groups, the last adjoining the rich El Conchero, later bought from Cornish & McKinnay, but recently forfeited after payments aggregating several hundred thousand dollars; and the El Trigo gold mines.

The reorganizers are patiently working to straighten the various legal adjustments, and bring matters to a final settlement. If they succeed, Col. Greene will face the world with a clean slate; if they fail, it is likely the last he will hear of the meteoric colonel. It is said by friends in this city that Col. Greene will come to California shortly and finish his magnificent palace at Rancho de la Brea, the building of which has been suspended.

Imperial County Oryx. That large deposits of oryx exist in Imperial county is the opinion of J. F. O'Day, who has spent a quarter of a century among the world's mining camps.

With P. T. Schanley and C. W. Kelly, Mr. O'Day owns forty claims on the desert near Warner's. The oryx, recently purchased by the Huntington interests, which, he asserts, carry good surface value of gold, and with development, will pay.

At many places in this section, which can only be likened to Death Valley, he has found oryx feed and every indication of its presence in large quantities.

Mr. O'Day claims to have located the old "Pegleg" camp, the continuation and stringers leaded in the famous vein. The region is all but below sea level and very hot, but he asserts the values are there if one will but go after them. Systematic sampling has been made and from a fifty-foot shaft shows values up to \$24 free milling gold. The rich in minerals and geological riches in this section Mr. O'Day declares to be second to none.

In many places large quantities of iron ore are seen, and prospectors have found black pearls in some. Huge lodes of asbestos can be found and the district is interesting from more standpoints than one.

Bureau of Information. The Chamber of Mines has taken up the question of supplying members and mining men with information as to hotel accommodations at and transportation to the various strikes adjacent to Los Angeles. It has compiled a lot of interesting data with reference to Salome, Quartzite and Vashburg. Those wishing complete information can obtain it by calling on the secretary.

C. and A. Report. The 1908 report of the Calumet and Arizona, just made public, shows the company to be paying dividends on a capitalization of \$25,000,000. Last year it paid \$800,000.

It has 1,000,000 pounds of fine copper in stock. Two hundred and ninety-nine thousand tons of ore was smelted, yielding ninety-four pounds of copper to the ton, and from 265,000 tons of dry 105 pounds to the ton was secured. A new converter stack, dust flue and furnace have been added to the Douglas smelter. The turbine plant established a record of ten months continuous run, smelting capacity 2300 tons daily.

The Superior and Pittsburg has developed extensive bodies and permanently lowered the water level. It did 25,572 feet of development, treating a large amount of wet and dry ore with satisfactory results.

Active at Von Trigger. Considerable mining is being done at Von Trigger, and mining men assert that some good properties will be opened.

The Old Glory Gold and Copper Company of Needles is developing seven claims three and a half miles south of the town of Von Trigger and has spent considerable money in the past two years on tunnels and shafts. The bodies are low grade, averaging about \$5. Some assays as high as \$15.

A shaft has been sunk sixty feet on the Carie claim, where the values lie practically in the expectation is to open a good body at about 300 feet. A tunnel is being drawn to tap this vein at 150 feet.

The Lanfair in Grassy Basin, six miles north of Von Trigger, is doing considerable development, and Dun Simmons has discovered a good copper vein on his property adjoining the Old Glory.

A claim is being worked by Los Angeles postoffice clerks five miles east of the town, and further east the Eschequer is steadily operating its mill. R. M. Dillingham, former postmaster of Bartow, has sold his interest in this property for \$10,000.

THE OIL INDUSTRY. AGENCY HOLDS A ELECTION TODAY.

INDEPENDENTS TO CHOOSE OFFICERS AND DIRECTORS.

Will Discuss the Curtailment of Output as Well as the Chances of Finding Purchasers Other Than the Associated for the Surplus Now on Hand.

The meeting of the Independent Agency at Coalinga today and of the Associated organization on the 14th inst., will be occasions of the utmost importance in oildom. There will be an election of officers and directors for the ensuing year. So far as is known there is no opposition to the incumbents, but there will be other questions of interest, especially that of curtailment of the output, and the disposal of what is on hand. It is likely that there will be earnest discussions of this in all its phases.

As stated in The Times yesterday, on the authority of the Agency's officers, there will be a surplus of 3000 barrels a day over the maximum which the Associated must take at 63 cents on May 1. It has refused to take this at that price, and the Agencies must begin storing it at their own expense until a market is found. Probably the chances of selling elsewhere than to the Associated will be brought up and discussed.

It appears that the Agencies' officers, before making their statement as to conditions, investigated all likely purchasers. It may be remembered that considerably over a year ago President Morehead of the Coalinga Agency, in an interview with The Times, foretold the very conditions which the Agencies' officials say they are facing. He warned them against excessive development.

The situation shown by yesterday's publication is being widely discussed in oildom. Many are extremely loath to believe the figures given. The effect is expected to be bad upon the notion of new companies.

Some interested in promotion are inclined to criticize bitterly the Agencies' officials' statements as driving away investors. Others are frank to say that those who put their money into oil should know the situation, that they are in publicity and concealment would be the worst policy possible in the long run. It was ignorance of conditions, the absence of warning from any one who knew, that did much to bring about the conditions that existed just before the Agencies were formed.

Ever since the first figures of consumption and production were published, a vigorous discussion of the subject has been waging in oil journals and the daily press of the oil regions. It has come to be little more than a repetition of "it is" on the one hand, "it isn't," on the other.

The Salt Lake Field.

The Rancho La Brea in developing the northeast portion of the Salt Lake field, is encountering a difficult formation and drilling is very slow. Boulders and water sand are much more plentiful than in the older part. The water, however, has been handled in every case but one without censuring, necessary in every well west of Sherman Junction.

The northeast is proving far superior to the eastern part of the field and the Amalgamated has leased just south of the Rancho La Brea's wells.

TO OBSERVE ANCIENT RITE.

Bishop Will Wash the Feet of Twelve Priests at St. Vibiana's Cathedral Today.

Bishop Conaty of St. Vibiana's Cathedral, this afternoon, will publicly wash the feet of twelve priests. The service is conducted in commemoration of the act of Jesus Christ, who washed the feet of the twelve Apostles at the last supper. The same ceremony will be performed at Rome today by the Pope, who will wash the feet of twelve beggars.

Prior to the advent of Protestantism the foot-washing was conducted with much publicity by all priests, but in recent years it has been given up by the lower priestly orders, only bishops and other high ecclesiastical officials performing that part of the service. This afternoon's service, which will begin at 4 o'clock, will be public. There will be mass at 7 o'clock and high mass at 9 o'clock this morning.

Fox Brand Health Food.

California's Most Delicious Breakfast Food.

Fox Brand Health Food is the lightest—the daintiest—the most delicious and the most healthful breakfast food you can eat in California.

It is select white wheat rolled into delicate thin flakes that retain all the natural nutritive elements, and the original inimitable flavor of the wheat kernel.

Do not confuse this with ground-up—pasty wheat foods—nor with ready-cooked foods. Fox Brand Health Food is in its natural state. You cook it in your own kitchen fresh every morning.

At grocers.

MUSIC AND THE STAGE.

last year, as those informed on subjects may remember, the Club—which has had an annual disturbance or two before—during a heated argument over director, Leonardo Campanari, the seceders came out, but were quiet the time, and nothing of special importance resulted from the factional understanding.

the dissenting company has now, never, reached the point of organization, and yesterday articles of incorporation were filed for a new musical concern.

his is called "The Musical Salon," the officers are Mrs. E. R. Viner, president; E. B. Veal, vice-president; M. G. Alford, secretary; and Mrs. Viner, treasurer.

Mr. Viner, head of the new club, who that her pride is pardonable, and yesterday articles of incorporation were filed for a new musical concern.

There were seven of us," said Mrs. Viner yesterday, "and we have gathered congenial and artistic folk around until now we have risen from seven to twenty-five."

the salon is a mixed chorus under the direction of Harley Hamilton. The members are in the Gamut Club, there are regular Monday night rehearsals.

in May 3 the salon will present Miss in a violin recital, and in May 4 the salon will present Mrs. Estelle Hearty-Dreyfus.

Mr. Shubert said last night that he has no arrangements to make as yet, but he was working industriously to get a new something definite on his mind.

Mr. Shubert will go to the Novelty theater in San Francisco, taking the party of his company with him, in two weeks.

E. Polymor has been in San Francisco the past few days, laying out music game for the entire Coast.

From Denver, west, next week the larger tour will be directed as a general rule, from this city.

Mr. Bishop will be heard in recital at the Alexandria banquet-room at 8 p. m. next Friday afternoon.

Bishop will be assisted by the Irish singer, Anthony Walter; by Lillian C. Rand, and by several others.

Mr. Ludwig Waelner, the German singer, who is to appear here in the season, has been playing at the new German theater New York City. His two most recent characterizations, so far, have been "Hans" and "Hans."

He has won much eulogistic comment by his impersonations. The Indian crafts exhibit was opened at the Orpheum last night to see "A Modern Pocahontas," a play by the same author.

Several other plays, including "The Indian Crafts," are being presented at the Orpheum. The association virtually holds all the one-night-stand theaters from Indiana to the Pacific Coast.

Mr. Burns, secretary of the Dry Farming Congress, who has been passing several days in this city, left for El Paso yesterday. He delivered a lecture there on the subject of dry farming in general.

While in Los Angeles, Mr. Burns was entertained by Frank Higgins, secretary of the Chamber of Commerce, and a number of land owners who are interested in dry-farming problems.

The development of the work of the Dry Farming Congress means millions of dollars to the Pacific Coast, said Mr. Burns yesterday. "It means that the operative agricultural use of the State dependent upon irrigation will be quadrupled within years. It means the doubling of irrigated area by the use of the technique of so-called dry and irrigated farming. It will result in the increase of exports, and the production of the country from crop raising."

Mr. Burns, secretary of the Dry Farming Congress, who has been passing several days in this city, left for El Paso yesterday. He delivered a lecture there on the subject of dry farming in general.

While in Los Angeles, Mr. Burns was entertained by Frank Higgins, secretary of the Chamber of Commerce, and a number of land owners who are interested in dry-farming problems.

The development of the work of the Dry Farming Congress means millions of dollars to the Pacific Coast, said Mr. Burns yesterday. While in Los Angeles, Mr. Burns was entertained by Frank Higgins, secretary of the Chamber of Commerce, and a number of land owners who are interested in dry-farming problems.

The development of the work of the Dry Farming Congress means millions of dollars to the Pacific Coast, said Mr. Burns yesterday. "It means that the operative agricultural use of the State dependent upon irrigation will be quadrupled within years. It means the doubling of irrigated area by the use of the technique of so-called dry and irrigated farming. It will result in the increase of exports, and the production of the country from crop raising."

Mr. Burns, secretary of the Dry Farming Congress, who has been passing several days in this city, left for El Paso yesterday. He delivered a lecture there on the subject of dry farming in general.

Robinson Company
S. Broadway 235-237-239. S. Hill St. 234-244

The "Gossard" corset is here in every model demanded by the present vogue in gowns.

(Main Floor, Rear of Annex.)

"Trefousse" Gloves

Favored by the Fastidious Dressers

Nobody even CLAIMS to have a better glove than the Trefousse, the sale of which is confined to us for this city. Every length, every weight, every shade, every style of stitching now in vogue will be found here.

No matter how elaborate your Easter costume may be, we've the gloves to match it:

Fine overseas real kid, 2-clasp length, with Paris point embroidery, \$1.65.

Two-clasp gloves of fine French kid, pique stitched; an absolutely perfect fitting glove, and in a full line of colors, \$2.

The very newest style in best quality French kid, with two large pearl clasps and heavy embroidered backs; white, tans, champagne, browns, mode, grays and black; \$2.25 a pair.

We've plenty of dollar-fifty gloves, of course. Not the Trefousse brand, but the very best that can be sold at that price.

50c Linen 35c

Suitings....

Here's an offering that will keep our linen salesmen busy today:

36-inch white all-linen suitings for skirts, shirt-waists and suits cut from 50c to 35c a yard.

(Linen Dept., Under Annex Skylight.)

Men's Shirts \$1

Not the regulation dollar shirts, though—not by any means.

Exceptionally handsome striped and figured materials—coat style, with pleated and plain bosoms; some with separate cuffs, some with attached cuffs.

(Right of Main Entrance.)

Sand Toys for the Little Tots

How is a child going to get the fullest amount of enjoyment from a beach outing unless he has sand toys?

Sand mills with buckets on chains, and sieves or dump cars attached, 35 cents to \$1.50.

Decorated wheelbarrows containing hoe, rake, shovel and sand molds, \$1.75 complete.

(Fourth Floor. Take rear elevators.)

Big Savings Domestic Rugs

Never mind the whys and wherefores—it's enough for you to know that our prices on the better grades of domestic rugs really are as far below the prevailing rates as the following list indicates:

9x12-ft. rugs of the best grade Bigelow Wilton, Oriental and allover designs in rich dark colorings \$35; elsewhere \$42.50.

The same kind in size 8 1/2 x 10 1/2 ft. at \$27.50 instead of \$37.50.

9x12-ft. imported Wilton rugs, made in one piece; soft, rich colorings, \$49.00, generally sold at \$60.00.

9x12-ft. "Bigelow" and "Roxbury" Axminster rugs in many new Oriental and allover designs—the \$27.50 and \$30.00 grades, at \$25.00.

Same kind in size 8 1/2 x 10 1/2 ft. at \$22.50 instead of \$25.00 and \$27.50.

This Year's Tailored Waists at \$2 & \$2.50

A tailored waist always looks neat and cool, and gives so much service that most women like to have two or three in their wardrobe:

How This Season's Tailored Waists Are Different:

Sleeves are smaller. Tucking is frequently a combination of wide and narrow tucks, while last year wide tucks were more used.

Large or small pearl buttons are used. Stiff collars usually; sometimes collars and cuffs beautifully hand embroidered.

Cuffs sometimes soft. Coultar tailored waists are generally different in style from those anywhere else—

Striped madras with Gibson shoulder, patch pockets, broad and narrow tucks, \$2 and \$2.50. Plain white at \$2.50.

Gloves from All Over the World Come to Coulters

Manufacturers vie with each other to have us as their customers. So we get the cream of the world's finest gloves—the best foreign and the best American made products. For example:

From France comes such famous makes as Vallier, Trefousse, the genuine V. Perrin et Cie. From Germany—Wertheimer and Cohen.

From Italy—Magionni and B. Blumenthal. From England—Topham, Dent and Perrin's English makes.

From America—Bachner & Meese, Lucas & Kennedy, Louis Meyer, Dempster & Place and others. These in suede, glaze, cape, reindeer and Mocha.

In silk gloves we show Kayser, Fowmes, Niagara Maid, Hall's and a line from Chamnitz, Germany. They may be had in every length from one to twenty-button.

From such an array, don't you think you can select your Easter gloves? We can match any shade you like.

Silken Hosiery to Match Your Gown

One of the smartest as well as the prettiest, present tendencies of fashion is to have one's hat, gloves, veil, gown, shoes and hosiery to match:

We are prepared to match perfectly even the most unusual shadings; and if we haven't any particular color in stock, we will have it dyed to your order. On hand now are wistaria, mulberry, coral, pink, electric blue, Copenhagen, bronze, tans, apricot, Nile, taupe, lemon, gold, apple green, cardinal, Burgundy, navy, hunter's green, pink, light blue; lavender amethyst, champagne, brown, turquoise, light and medium grays.

We are sole Los Angeles agents for Hosiery for women. Children's sizes carried in stock, also.

McCall Magazine 35c a Year And a Free Pattern

If you call each month at the store for it, you may have a year's subscription to McCall Magazine for 35c; if you prefer it delivered at your home, the price is 50c. And with every subscription you receive a free McCall Pattern of your own selection.

Patterns, Magazine, Catalogue and Fashion Sheets for MAY are already here. Fashion Sheets free.

Brown's Wonder Cream—for chapped hands and faces. A free demonstration at the Glove Section, if you ask for it.

Undermuslins Change Prices

No matter how carefully we try to avoid it, garments of white, displayed on open counters, will become somewhat soiled and tumbled through handling and displaying. We take stern measures with such things—today's prices on drawers illustrate that:

Drawers of fine quality, splendidly made, on yokes or with bands; neatly trimmed with fine laces and embroidery:

75c Drawers	50c	15c Drawers	\$1.00	\$1.75 Drawers	\$1.10, \$1.20 & \$1.25
\$1.00 Drawers	70c	\$2.00 Drawers	\$1.35	\$3.00 Drawers	\$2.00
\$1.25 Drawers	85c	\$2.50 Drawers	\$1.70	\$4.50 Drawers	\$3.00

EVENTS IN LOCAL SOCIETY.

HOSE who have been fortunate enough to be included among the guests of Miss Virgil McGrath at Twelfth street, for Wednesday next, are looking forward to the function with delight. Her invitations are for a green and white card party. The secrets of her plans are not out as yet, but it is known that many unique features are being planned for the afternoon. Miss Mamie Clossman of Anaheim, O., who is visiting relatives and friends in this city, will be the guest of honor. Those invited to meet her are Mrs. J. C. Brown, Mrs. Lawrence Pease, Mrs. Stuart of Denver, Miss Emma Harvey, Miss Ines Chapman, Miss Beatrice Cutler, Miss Gertrude Conwell, Mrs. J. R. McFarlane, Mrs. S. B. Grilling, Miss Edna Olds, Miss Rita Russell, Miss Pearl Thompson, Mrs. Mark Kelsey, Miss Ethel Lovell, Mrs. Maude Lecher, Mrs. J. J. Fall, Miss Irene Guthrie, Miss Maude Guthrie, Miss Earl Wainwright, Mrs. Dickson, Miss

that, as their wedding day. The ceremony will be held in Long Beach.

Dinner Dance.
In compliment to Miss Frances Barber and Gabriel Cash, whose wedding will be one of the large affairs of this month, Mr. and Mrs. George Culver of Santa Monica entertained last evening with a fashionable dinner dance.

On for Europe.
Mrs. Gertrude Ross Harris, daughter of Mr. and Mrs. Abner L. Ross, of No. 1006 South Alvarado street, left yesterday for New York from which place she will sail April 24 for Europe.

Wooden Wedding.
In celebration of their wooden wedding anniversary, Mr. and Mrs. Charles Leslie Poole of No. 2648 Vermont avenue gave a reception and musicals last evening.

Invitations Out.
Five hundred invitations have been

END OF A RED NOSE

New Flesh-Colored Product That Heals and Hides Skin Imperfections.
A peculiar feature of posium, a new skin discovery, is that it is naturally flesh-colored and contains no grease, so that when used on the face for the complexion, or for pimples, red noses, or any other inflammations, blemishes or discolorations, its presence cannot be detected. It can thus be applied in the daytime, the natural color of the skin being immediately restored and the actual healing and curing process accomplished in a few days. It can be had of any pharmacist who sells pure drugs. The Owl Drug Co. makes a specialty of it. Fifty cents' worth will answer either for the troubles mentioned or in curing ordinary cases of eczema. Itching stops at once.

The Emergency Laboratories, No. 32 West Twenty-fifth street, New York, are the sole dispensing agents for posium in the United States and will send an experimental quantity free by mail in plain wrapper to all who write for it. This will show results after an over-night application.

ternoon. Miss Maude Park gave an interesting reading of "The Neckline," and the pupils of the fifth grade entertained the members with several songs numbers.

Cosmos Club's Birthday.
Members of the Cosmos Club, celebrated the fourth birthday anniversary of the club yesterday at Elbel Clubhouse. Music, recitations, songs and a big birthday cake were the features of the celebration. Mrs. Robert P. Howell, president of the club, presided and in a happy little talk gave a history of the club's work.

Wednesday Morning Club.
The Shakespeare section of the Wednesday Morning Club held an interesting session yesterday with Mrs. H. E. Brett as leader. "Julius Caesar" was under discussion and clever papers treating of characters in the play were read by several members. Mrs. A. R. Thompson's paper treated of Portia and Cato. Mrs. L. C. Batschelder had for her subject Mark Antony; Mrs. Nellie Tilley, Brutus; and Mrs. W. E. Mueller, Cassius. Mrs. George C. Thompson contributed a highly interesting paper on "The Roman Triumph." Dr. St. Davidson's paper, which told of the influence of Julius Caesar in later years, was greatly enjoyed. In the afternoon a business session was held, at which nominations were made.

UNIQUE DINNER.

C. S. Holtzasser of Hamburg's
Feted at Banquet, Tendered by Buyers of Store.

The thirty buyers at present in the city, who with their wives and families, go to make up the Buyers' Association at Hamburg's, tendered C. S. Holtzasser, general representative of the firm in the New York market, a banquet last night in the Hamburg Café. The president of the association, C. Adams, being out of the city, H. Jellinger, the first vice-president, was in charge, while W. Hefflinger officiated as toastmaster.

After a telegram of well wishes was sent off to S. A. Hamburger in New York and to W. E. Chamberlain, the assistant president, J. Dreyfuss responded to the toast of "To the Buyers' Honor," with well-rounded phrases of eulogy for the New York guest, who returned the compliments with interest and consummate skill in the toast he proposed for "The Buyers." J. Tolliver kept the company in good humor by his "Tales of the Troubles of the New Buyer," he being in turn followed by M. A. Hamburger and his brother, Dr. A. Hamburger, who respectively discussed "Behind the Counter" and "In Front of the Counter," bringing out lessons and reminiscences from their own experience on both sides. The sales manager, D. H. Schulmann, followed with some remarks on advertising, before he and finished this discourse on printers' ink. W. Tummonds, the head of the accounting department, brought out some strong figures in and on "Red Ink." W. N. Baile spoke on "Systems," showing some of the little stunts a superintendent has to run such a store as "The Big White Store" from his desk headquarters. Other speakers were W. Fitzpatrick on "The Goods," Otto Green, the cashier, on "Money in the Till," and there were several impromptu addresses by almost every member present, among whom were J. Collins, C. Beasman, A. Johnson, W. Ruck de Belch, G. Kall, E. Woods, E. Dart, H. Koll and L. Lederman.

PLANS NEW HOTEL.

Proprietor of St. James Will Begin Actual Work on Family Hotel
Next Month.

A. T. Stewart, proprietor of the St. James Hotel, has nearly completed his plans for the erection of a new family hotel, opposite St. James Park, on the northwest corner of Newwood and Twenty-third streets. The building is to cost in the neighborhood of \$75,000. The incorporation papers were issued yesterday.

In speaking of his project, Mr. Stewart said: "The new hotel will be five stories high, with seventy-five apartments, each with a private bath. There will be a number of additional single rooms, a roof garden, sun parlor, bowling alley, banquet and dance hall. The general style of the building will be Venetian, similar to the buildings on the driveway at Venice. We will begin work next month."

REVOLUTIONISTS BETRAYED.

Armenian Arrested Working on Railroad Discloses Location of Russian Committee.

(BY DIRECT WIRE TO THE TIMES.)
COPENHAGEN (Denmark) April 7. (Exclusive Dispatch.) A private dispatch from St. Petersburg says that at last the police have succeeded in finding and arresting the Central Committee of the Russian revolutionaries. Last month the police arrested the members of several local provincial revolutionary committees in different parts of Russia. Evidently all originated from the same center in St. Petersburg, but it was impossible to locate it.

A few days ago a secret service man arrested an Armenian working on a railroad running into Moscow. He had in his possession several big trunks filled with guns and dynamite. This Armenian betrayed the Central Revolutionary Committee of which he was a member. It had headquarters in a wealthy merchant's house on the Grand Square, Nevsky Prospect.

The following night the police surrounded the house and arrested more than 100 members of the organization, among them several high officers in active service. Large quantities of regular army rifles and revolvers and dynamite were found in the cellar of the house.

If You Want to Go East C. Maydeck, Agent Illinois Central R.R., 131 West Sixth.

Symbolical Decorations

Are impressive and pleasing.

Many novel and artistic decorative features at our beautiful Easter Display of Imported Novelties. Children especially invited to see them.

SPECIAL CORRESPONDENCE OF THE TIMES.
PRESCOTT (Ariz.) April 6.—It is

At Holbrook has been voted the winning of the district for a new \$6000 school building.

GOLD MEDAL FOR AERONAUT.
NEW YORK, April 7.—Capt. T. S. Baldwin, U.S.A., is to be honored by the Aero Club of America with a gold medal. Announcement that his services to the cause of aeronautics were so recognized in this manner was made after a meeting of the Contest Committee of the club here yesterday. The medal will bear the following inscription: "To Thomas Scott Baldwin, in recognition of his services in constructing the first war dirigible balloon, accepted by the United States government in 1894."

This will prove a welcome bit of information for all those who are overworked, gloomy, despondent, nervous, shaky, trembling limbs, heart palpitation, dizziness, cold extremities, insomnia, fear without cause, timidity in venturing, and general inability to act naturally and occasionally, even to get the best treatment can be prepared secretly, at home and taken without any one's knowledge.

If the reader decides to try it, get three ounces of ordinary syrup sarsaparilla compound and one ounce compound of iron and quinine, mix and shake two hours; then get one ounce compound essence cardiol and one ounce tincture caduene compound (not caduene compound) and mix well. You will take a teaspoonful after each meal and one when retiring.
